Night Hike
Social Story

Night Hike

The night hike is where we will explore a new place and experience the outdoors in a different way. We will work together to find our way using a map and have a laugh with our friends.

Night Hike

We'll leave for our night hike after we finish the evening meal.

The instructors will tell what I need to wear and what time we will meet for the walk.

I need to make sure I'm listening to the instructions.

Night Hike

If it is cold, I'll need to wrap up warm. I might need to wear my waterproofs.

If it is dark, I should take a torch.

I should wear my walking boots or borrow a pair from White Hall if I don't have any.

Night Hike

We might travel on a minibus to get to the start of the walk.

When we arrive, I will listen carefully to my teachers and stay with my group. This will help keep everyone safe.

Night Hike

Everyone's torches might be quite bright. I can tell the people in my group if I don't like them shining their torch on me.

I will have an adult with the group the whole time. I'll never be on my own.

Night Hike

I will probably see some nice views from the walk, and I might hear or see some wildlife.

The walk may be hard work, but it's a great achievement to have been involved.
