Stream Scrambling

Stream scrambling is a fun adventure where we make our way up a stream. We will climb over rocks, go under branches and get a bit wet!

Stream Scrambling

I will need to put a full change of clothes, a towel and my wash kit in the shower room before we go. This means I can have a shower straight away after we finish stream scrambling.

Stream Scrambling

I should wear clothes and shoes that I don't mind getting wet.

I might have to wear a waterproof coat and trousers over my clothes.

I will need to wear wellies.

A helmet will protect my head.

Stream Scrambling

When I go into the stream, I will hear the water flowing, it might be quite loud.

The water will be cold.

I will probably get wet feet.

If I don't want to get wet, then I can tell my instructor.

Stream Scrambling

I need to make sure that I stay with the group and that I listen to my instructor.

The rocks may be slippery, and I might find it hard, but it's okay to take my time.

There are lots of different challenges that I can try.

Stream Scrambling

Once we have finished stream scrambling, we will walk back to the minibus and drive back to White Hall.

I can have a warm shower and get changed into dry clothes.

It's a great achievement to be involved in the session.
